PROTEST FIXING OF PRICES ON HOGS

(Continued from First Page.) mary to prevent any further price fix

ing on hogs. The petition reads as follows: Thomas W. Gregory, Attorney Gen-

eral, Washington, D. C .: "As members of the New York Produce Exchange, vitally interested in handling the products of agriculture. Pa., Philadelphia, William M. Cunningham N. Y., New York, Ralph W. Talbot. we petition your honorable self to take such action as will prevent any further arbitrary price fixing of hogs, and consequently of hog products, by a so-called hog price fixing committee, which, as far as we can learn, is acting without any legal status.

"Price fixing by this committee has been in operation for several months. As a war measure, we would have nothing to say, but would loyally support any action of the Government for III., Greeney, increasing the suplpy of food. It is increasing the suplyy of food. It is now no longer a war measure, and such arbitrary action should be stopped. Everett C. Brown, chairman of the flog Price Fixing Committee, has openly stated that were it not for the activities of his committee, hogs would now be calling at from 10 to 12. would now be selling at from 10 to 12 cents per pound, instead of 173 cents per pound, the price arbitrarily axed by his committee.

What end in view the committee has in holding the price of hogs, and consequently the price of hog products, at from 5 to 7 cents per pountd above the normal price, based on supply and demand, we do not know, but we do know that the arbitrary and tion of this committee is placing a beavy on the long suffering consumers, who comprise about 70 per cent of the population of the country in com parison with about 30 per cent of the farmer population, and that it is now causing discontent among the people which is now openly and bitterly ex

"As a war measure, well and good, but in peace the old law of supply and demand can fix prices better than any Government bureau, whose usefulness is now at an end, and whose activities, if they cannot be entirely suppressed should be held down to the strict letter of the law. "NEW YORK PRODUCE EXCHANGE."
